

ADP DISTRIBUTION BY FACILITY TYPE

The "Average Daily Population" (ADP) of the DOC was 30,207.* ADP is the sum total of the offender population resulting from periodic head-counts divided by the number of observations. There are four basic types of DOC facilities - major institutions, field units, work centers, and community facilities - but there are differences between individual facilities within each type. The offender's security risk (6 security risk levels, Level 1 being the lowest and Level 6 being the highest), health care needs, educational needs, age, area of residence, etc. determine where an offender is housed. Offenders can be placed in a community facility (Detention/Diversion Center) by a court of law or direct referral by the Division of Community Corrections.

FACILITY TYPE	FY 2004	FY 2003
Major Institutions	25,554	25,558
Field Units	2,744	2,788
Community Corrections Facilities	810	819
Work Centers	1,099	911
	30,207	30,076

* The above ADP statistics refer to offenders housed in facilities operated by DOC. Excluded from these statistics are 1,561 DOC inmates housed in a privately-operated prison in Lawrenceville.
